
Risk Management & Insurance Courses at NC Community Colleges Spring 2018

Last revised: December 18, 2017

Continuing Education Courses in Risk Management and Insurance

The North Carolina Community College System (NCCCS) provides the opportunity for its 58-member community colleges to offer Insurance and Risk Management courses in Continuing Education. Six such courses are listed in the NCCCS Combined Course Library (CCL):

- **INS-3121: Life Insurance-**
(This course is designed to align with the NCCCS Curriculum Course INS 121)

This course is designed for instructional areas related to life insurance topics to meet the pre-licensing education requirements for insurance agents as prescribed by the North Carolina Department of Insurance - Agent Services Division. Program must be approved by the NC DOI and provide information on qualified instructors. Topics include annuities, whole, term and life insurance. The course intent is to prepare students to take the NC Department of Insurance - Life Insurance license exam.

- **INS-3122: Accident & Health/Sickness Insurance**
(This course is designed to align with the NCCCS Curriculum Course INS 122)

This course is designed for instructional areas related to accident and health insurance topics to meet the pre-licensing education requirements for insurance agents as prescribed by the North Carolina Department of Insurance - Agent Services Division. Topics include health, accidental death & dismemberment, HMO, personal accident, major medical, critical illness and disability. Programs must be approved by the NC DOI and provide information on qualified instructors. The course intent is to prepare students to take the NC Department of Insurance - Accident and Health Insurance license exams.

- **INS-3127: Claims Adjusting**
(This course is designed to align with NCCCS Curriculum Course INS 127)

This course is designed for instructional areas related to adjusters insurance topics to meet the pre-licensing education requirements for insurance agents as prescribed by the North Carolina Department of Insurance - Agent Services Division. Programs must be approved by the NC Department of Insurance and provide information on qualified instructors. Topics include property & casualty, crops, worker's compensation and public

lines. Programs must be approved by the NC Department of Insurance and provide information on qualified instructors. The course intent is to prepare students to take the NC Department of Insurance - Adjustor license exam.

- INS-3128: Medicare/Long-Term Insurance
(This course is designed to align with NCCCS Curriculum Course INS 128.)

This course is designed for instructional areas related to Medicare Supplement and Long-Term Care insurance topics to meet the pre-licensing education requirements for insurance agents as prescribed by the North Carolina Department of Insurance - Agent Services Division. Programs must be approved by the NC Department of Insurance and provide information on qualified instructors. Topics include Medicare supplements, advantage plan, Plan D, and long term care. The course intent is to prepare students to take the NC Department of Insurance - Medicare Supplement/Long-Term Care and Estate Planning Insurance license exams.

- INS-3310: Insurance: CE
This course is designed for instructional areas related to select topics to meet the continuing education requirements for licensed agents as prescribed by the North Carolina Department of Insurance-Agent Services Division.

- INS-3385: Insurance: Pre-Licensing
This course is designed for instructional areas related to select topics to meet the pre-licensing education requirements for insurance agents as prescribed by the North Carolina Department of Insurance-Agent Services Division.

Currently, several Community Colleges are offering such courses. IIANC has offered to post on the IIANC website any of the above courses being taught in Continuing Education. Colleges send their course offerings to NCCCS, and then NCCCS sends them to IIANC for posting. The Spring 2018 courses sent to IIANC are at the bottom of this document.

NEW: Accounting and Finance: Risk Management and Insurance Specialty Track

Friday, August 18, 2017 was a BIG day for NCCCS and its partnership with IIANC. The State Board of Community Colleges (the governing board of the North Carolina Community College System) approved a realignment of the academic course offerings in Accounting & Finance programs across the fifty-eight community colleges. The new alignment provides the opportunity to offer academic courses for a specialty track in Risk Management and Insurance (RMI).

Please note that beginning in Fall 2018 the following four INS courses (descriptions are above) can be counted as credit hours toward a certificate, diploma, or 2-year degree in Accounting

and Finance with a specially track in Risk Management and Insurance: INS 3121, INS 3122, INS 3127, and INS 3128, if a community college chooses to offer the RMI specialty track.

The new academic realignment that includes the “Risk Management and Insurance” specialty can be found at: http://www.nccommunitycolleges.edu/sites/default/files/state-board/program/prog_06_accounting_and_finance_alignment_project_summary.pdf.

INS Courses in Continuing Education at Community Colleges in Spring 2018

The list below is comprised of those CCs providing continuing education RMI course information to NCCCS. It will be updated as more information is provided by NCCCS to IIANC.

QUESTIONS: All questions about the CC course offerings below should be directed to the specific Community College’s contact person in the CC summary below.
