## Millers Mutual Insurance Expands Into North Carolina

Harrisburg, PA— Millers Mutual Insurance, a regional property and casualty insurance carrier focused on Multifamily Housing, expands into North Carolina.

On July 1, 2021, we will begin offering property & casualty insurance in the state of North Carolina. With this latest addition, we now offer property and casualty insurance in seven states: Pennsylvania, Delaware, Maryland, North Carolina, Ohio, Virginia and Washington, D.C.

Our mission at Millers Mutual is simple – we help single and multifamily housing and commercial real estate owners stay in business by protecting them from financial misfortune. And we are able to do that by offering a full complement of commercial insurance products and services, which includes businessowners policies, umbrella liability, data response and cyber liability, employment practices liability and equipment breakdown insurance.

“Our agents rely on us because our singular commitment to the habitational market makes us reliable in both appetite and approach to pricing,” said Jonah Mull, President & CEO. “We give agents the consistency their business demands and the confidence they can stake their relationships on.”

We are actively searching for independent agencies to represent Millers Mutual in North Carolina. Learn more about our risk appetite and the benefits of becoming an appointed agent at <https://millersmutualgroup.com/millers-mutual-agent-north-carolina/>.
